

# Island Pacific Cloud

## Overview

Island Pacific Cloud provides Island Pacific SmartSuite in the cloud available off premise in a Managed and Hosted environment. Island Pacific Cloud is available on the latest bleeding edge technology and provides a flexible and scalable solution.

## Benefits

### ▼ Scalability

- Flexible and agile, easily scale up or down as your Cloud capacity needs change.
- Customer retail environments can be rapidly scaled up to meet demand during peak times and seasons.

### ▼ Availability

- Redundant power and network sources ensure systems remain accessible in the event of a single resource failure.

### ▼ Highly Secure

- Retailers can rely on Island Pacific's SSAE and PCI-DSS certified Data Center to ensure every transaction and communication is completed securely.

### ▼ Backups & Business Continuity

- Offsite backup ensures against loss of data in a disaster.
- Data only as well as cold or hot site options available depending on your needs.

### ▼ Cost Efficient

- Our Cloud solution eliminates the need for retailers to acquire and manage their own infrastructure reducing OPEX and CAPEX budgets.
- Island Pacific Cloud greatly reduces the upfront cost of obtaining costly hardware and software.

### ▼ The Latest Software

- Our Cloud solution eliminates the retailers need to manage software licensing and compliance.
- Cloud customers can rest assured they are operating on the most current releases of commercial software available.

### ▼ Cutting Edge Hardware

- An aggressive hardware lifecycle ensures you are always hosted on cutting edge systems, utilizing the latest commercially available technology.

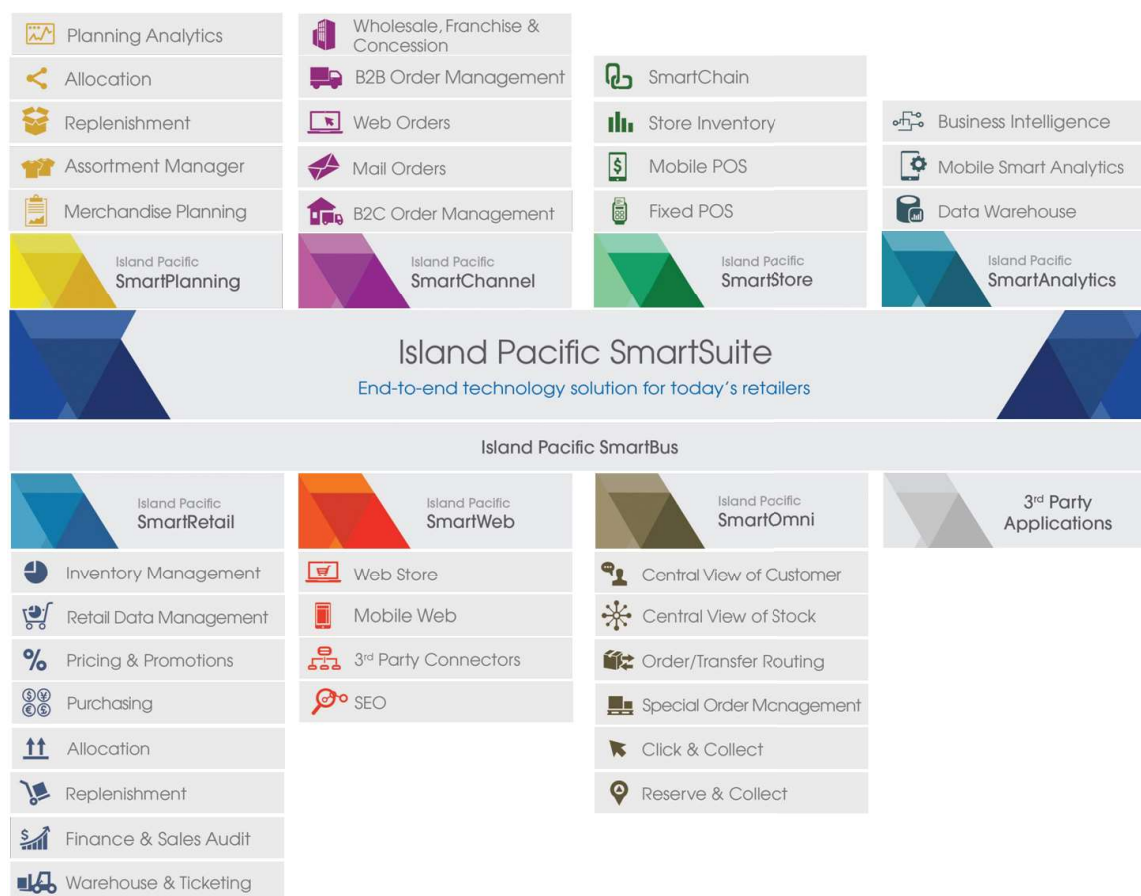

## Features

- ▼ Multiple options available to offer retailers a choice of services which meet their business needs. These services are available in Gold and Platinum packages.
- ▼ Supports Island Pacific SmartSuite as well as other third party technologies.
