

# Island Pacific SmartRetail

## Overview

To effectively manage business inventory and make merchandising decisions that drive revenue and growth, retailers today need a system that is fully integrated and feature-rich, with all the decision-making tools required to make the complexities of retail merchandising a thing of the past. As one of Island Pacific's core software solutions, Island Pacific SmartRetail provides all the essential tools you need to help you through the merchandising life cycle.

Island Pacific SmartRetail has an extremely intuitive interface that allows you to create items, access and control purchase orders, dynamically replenish stock and allocations, price deals and promotions; as well as view physical inventory, customer and store profiles, finance and warehouse operations and audit sales - all from one place.

The solution is highly secure, this allows users to only access the information required within their responsibilities. Additionally, it has support for rich text, product images, date and currency formats and much more. For a demo, or to learn more about the Island Pacific SmartRetail software solution, contact us today.

## SmartRetail

Warehouse & Ticketing

Sales Audit

Finance

Promotions & Pricing

Allocation & Replenishment

Purchasing

Inventory Management

## Benefits

- ▶ **Fully integrated:** Manage and track all retail operations
- ▶ **Scalable:** Supporting your business growth strategy
- ▶ **Easy to use:** Has a highly intuitive interface
- ▶ **Customizable:** Tailor the system to align with your internal processes
- ▶ **Time and cost savings:** Reduce man-hours by automating processes and minimize costs by increasing accuracy of stock measurement, supplier purchases and more
- ▶ **Centralized data:** All retail data (merchandising, finance, warehouse stock levels, etc.) in one place, instantly accessible at the point of need

## Features

- ▶ **Retail Data Management module:** Manage stores and merchandise more efficiently, using tailored reports and filters to analyze performance
- ▶ **PO Management module:** Streamline and automate purchase order processes
- ▶ **Replenishment & Allocation modules:** Dynamic calculations which react to historical trends and forward sales projections to ensure the right stock at the right place at the right time
- ▶ **Finance/Pricing modules:** Manage pricing across stores/ ranges, with capabilities such as time/location sensitive pricing and multi currency, aligning seamlessly with your sales strategy
- ▶ **Deals and Promotions module:** Easily manage promotions and analyze performance to maximize sales opportunities
- ▶ **Inventory Management module:** Maintain inventory control and data integrity
- ▶ **Finance and Sales Audit modules:** Manage finance and auditing with ease, using precise transaction details or multi-channel high-level summaries
- ▶ **Optional Warehouse module:** View and manage essential warehouse operations, with a full audit trail for each item – from receipt to dispatch
